Education

Università Degli Studi Di Perugia, Bachelor's Degree in Computer Science – Perugia, PG, ITA Sept 2023 – present

Experience

Cyber Security Training, CyberChallenge.it – Perugia, PG, IT 2022 – 2024

Fullstack Developer, Angolo 41 – Città di Castello, PG, IT Sept 2024 – present
I develop small applications for this place as needed and maintain their website with an integrated digital menu.

Developer, Unico – Italy Dec 2023 – present
UNICO (UNICO) is a startup that my friends and I have tried to set up. It all started with a main project, an advanced platform designed to optimize the use of AI models such as GPT, Gemini or Claude. Designed to always choose the best model for each scenario, customizing and integrating it to meet specific needs.

Projects

Angolo41 Online Menù Sept 2024 – present
Website with Menù and Dashboard Hosted on Vercel

ShiftSaver Oct 2025 – present
Open source Android application to save your work shifts. Implement Android ROOM and save all data locally.

UNICO Dec 2023 – present
